Quality Primary Care Since 1942

Welcome to Rancho Family Medical Group! We have been providing quality healthcare in the Temecula Valley since 1942 and have now expanded to over 12 offices throughout the South-west Riverside region. Our team of physicians are committed to delivering exceptional service and bringing you the best that quality healthcare has to offer. We believe in encouraging a balanced diet filled with minimally processed, whole foods and regular movement to ensure you are maintaining your health outside of the exam room. We strive to provide outside

resources, such as nutrition talks and exercise courses, to further educate you on your health and well-being.

With access to hundreds of resources including hospitals, specialists and wellness programs, you can trust that you'll be receiving top-notch care with us.

We look forward to helping you maintain your health and well-being!

What makes us different?

Large Network of Specialists

We are committed to providing you with the highest quality of care. That's why we've partnered up with Regal Medical Group as our IPA (Independent Physicians Association). With their assistance, we have created contracts with local specialists, hospitals, and insurance companies. If you ever need a specialist referral, you can count on us to utilize Regal's expansive and reliable network to quickly connect you with the care you need. Regal Medical Group is one of the leading medical groups in Southern California, and they have earned a reputation for excellence over the past 35 years. Our partnership with them ensures that you'll always receive premier healthcare when you are a patient at Rancho Family Medical Group.

Hospitalist Care

At Rancho Family Medical Group, we are proud to have a team of hospitalists who provide our patients with the best care possible. Our physicians round on our patients at four different hospitals: Inland Valley Hospital, Loma Linda Murrieta, Rancho Springs Medical Center, and Temecula Valley Hospital. No matter what hospital you might be admitted to, you can be sure that you will be taken care of by one of our trusted Rancho Family Medical Group physicians. Our hospitalists can access your medical records and communicate with your doctor, as well as submit any necessary prescriptions or referrals. This team provides continuity of care that begins at the moment you're admitted into the hospital to when you are released back home.

Hospital Affiliations

Our patients are cared for by our hospitalist team at the following hospitals:

- Loma Linda University Medical Center in Murrieta
- Rancho Springs Medical Center
- Temecula Valley Hospital
- Inland Valley Hospital

Care Teams

Our offices use a care team approach that allows all members of your designated team- Doctors, Nurse Practitioners and Physician Assistants- to work together to provide you with comprehensive and cohesive care. Our Nurse Practitioners and Physician Assistants are trained to diagnose and treat injuries and illnesses, track and update patient medical histories, order lab tests and diagnostic tests, review and analyze results, prescribe treatment plans, educate patients and family members on proper health, and refer to other professionals as needed. All team members have access to your records so that there is continuity of care throughout the entire process. Through this model of coordinated care, you have more access to the providers you know and trust.

Same-Day & Longer Appointments

We understand that when you need medical attention, sometimes you don't want to wait. That's why we offer same-day appointments for our patients so they can get the care they need as soon as possible. Our convenient appointment times make it easy for you to schedule a visit on your own terms and still receive personalized care when you need it. We also offer longer appointment times than the industry standard to ensure you are getting the highest quality care.

What makes us different?

Better Physician Connections

We understand that a doctor who listens to you is of the utmost importance. We invest in having medical scribes take notes during your visit so your provider can be more attentive and intentional to your individual needs.

Patient Relations Specialists

Our Patient Relations team will call your health plan alongside you to make sure there are no hiccups along the way. When you become a patient, they are here to serve YOU, our senior community, and be available for questions throughout the duration of your care.

Unlock the Benefits of MyChart

MyChart Patient Portal

MyChart is the perfect online portal for you to stay connected with your healthcare team. Through this secure and user-friendly platform, you can access your medical information 24/7 right from the convenience of your smartphone or computer. With MyChart, you can easily message providers, book appointments, request prescription refills, review lab results, pay outstanding bills, and view visit summary - all in one place! Signing up is simple and takes only minutes; make sure you take advantage of MyChart to get the most out of your healthcare.

With MyChart, patients can:

- Message a Provider
- Book an Appointment
- Request Prescription Refills
- Review Lab Results
- Pay Outstanding Bills
- View Visit Summary

Dr. Rome Walter

Family Physician

Hometown

- Central Valley, CA

Education

- Midwestern University – Arizona College of Osteopathic Medicine

Residency

- Southern Illinois University

Why Dr. Rome pursued medicine

- During his childhood Dr. Rome recalls times his mother would have each of

her children drink aloe vera juice and apple cider vinegar as a measure to add some extra nutrition into their busy lives. This initially started Dr. Rome down his path toward becoming a holistic physician and pursuing a career in osteopathic medicine.

Hobbies

- Mountain biking
- Reading classic literature
- Meditating
- Spending quality time with his wife and five children.

How Diet Affects Mental Health

We all know that food is fuel for the body, but most of us forget that it also fuels our brain. While it is easy to see how processed and sugary food can negatively affect physical health (weight gain, obesity, pre-diabetes etc.), it is not always so apparent how it affects our mental health. The food we decide to eat does impact our mental health and it is important to eat good fuel to regulate appetite, moods, and emotions.

Eating healthy foods promotes the growth of beneficial bacteria in the gut, which in turn supports healthy neurotransmitter production. A diet high in sugar and processed foods, on the other hand, can cause inflammation and impair function. This can lead to negative mood changes. Therefore, it is important to eat a balanced diet that includes healthy fats, complex carbohydrates, and vitamins to support optimal mental health.

There are several foods that can help improve mental health.

Omega-3 fatty acids, for example, are known to support healthy brain function. Foods rich in omega-3s include salmon, walnuts, and flaxseeds.

Getting enough omega-3s is important for mental health because they have been shown to help with symptoms of depression, anxiety, and ADHD.

Complex carbohydrates like whole grains found in brown rice and whole wheat are important for mental health as they help to regulate blood sugar levels. When blood sugar levels are stable, it helps to keep energy levels up and prevents mood swings.

There are certain vitamins and minerals that are especially important for mental health, as they are all found to improve both mood and cognition. These include magnesium, zinc, iron, and vitamin B12. Magnesium is found in dark leafy greens, nuts, and seeds and can help to reduce stress and anxiety. Zinc can be found in foods like oysters, poultry, beans, and nuts. Iron is typically found in red meat although you can also get it from plant based substances such as dark leafy greens and legumes. Vitamin B12 is found in poultry and eggs and Vitamin D is found in fatty fish, mushrooms, and fortified milk.

The foods we eat have a direct impact on our mental health. If you are struggling with your mental health, consider making changes to your diet and speaking with a mental health professional to see if nutrition therapy could be right for you.

Healthy Brain Foods

- Salmon
- Brown rice
- Dark leafy greens
- Nuts & seeds
- Poultry & eggs
- Beans & legumes
- Mushrooms

SERVES 4

Ground Turkey White Bean Kale Soup

Ingredients

1 lb ground turkey
2 bay leaves
1 can white cannellini beans
2 carrots
3 cloves garlic
1 cup kale
1 cup onion
1 turnip
2 springs fresh rosemary
6 cups chicken stock
1 cup water
Salt & black pepper
Paprika or cayenne
Italian seasoning

Directions

STEP 1 Add chopped onion and garlic to a pot on medium heat. Add in ground turkey and season with salt, pepper, and Italian seasoning and optional paprika.

STEP 2 Add in turnip, carrots, beans, chicken stock, rosemary, and bay leaves.

STEP 3 Bring to a simmer and remove rosemary and bay leaves.

STEP 4 Serve and enjoy!

Chicken Sausage Sheet Pan

RANCHO FAMILY
MEDICAL GROUP
ranchofamilymed.com

SERVES 4

Ingredients

2 cups brussels sprouts, trimmed & halved
2 cups butternut squash, peeled, deseeded & cut
1 sweet potato
2 tablespoons olive oil

1 tablespoon pure maple syrup
2 tablespoons fresh rosemary, finely chopped
12 ounces apple chicken sausage, fully cooked & sliced into ¼ inch pieces

2 tablespoons pine nuts
Coarse kosher salt & freshly ground black pepper
Optional: shaved parmesan, balsamic glaze, etc.

Directions

STEP 1 Preheat the oven to 425°F.

STEP 2 Place the trimmed brussels sprouts, cubed butternut squash and cubed sweet potato on a foil lined sheet pan. Drizzle the olive oil & maple syrup over ingredients.

STEP 3 Season with the fresh herbs, 1 teaspoon kosher salt, & ground black pepper as desired. Toss to coat the veggies in the seasoning, then arrange in an even layer on the sheet pan.

STEP 4 Add the thinly sliced chicken sausage to the pan.

STEP 5 Transfer the sheet pan to the oven. Roast for 25 minutes, flipping the veggies & sausage halfway through.

STEP 6 After 20 minutes, add the pine nuts to the sheet pan and roast for the remaining 5 minutes.

STEP 7 Add parmesan and balsamic dressing if desired and serve!
