SDMG Specializes in Senior Care

About SDMG

San Diego Medical Group has provided excellence in medical care in San Diego since 1995. We are located in Hillcrest in the prestigious Mercy Medical building directly across the street from Scripps Mercy Hospital.

We have three superior medical providers and a staff dedicated to administering outstanding medical care to our patients. We provide a broad range of medical services, including annual exams, well-woman exams, treatment of high blood pressure, diabetes, heart disease, lung disorders, kidney conditions, and preventive screening.

We take pride in our highly efficient, well-organized, and patient-friendly office. We have extensive online services for patients to assist in appointments, test results, medication refills, and direct office messaging. We strive to uphold the finest and highest principles in modern-day medicine.

Provider Care Teams

Our providers work together to provide the most cohesive care. That way, no matter who you see, you can be confident your doctor knows your history and is available for you.

Easy Appointment Scheduling

We use the latest technology in the industry to allow our patients to book appointments from their computers or phone.

Be more than a Number

At San Diego Medical Group, we understand how important it is for patients to be known by their doctor. Our goal is to create lasting connections with our patients so they can lead happy and healthier lives.

Dr. Paul Wagner, MD, FACP

Internist

Dr. Wagner is a great doctor, he calls you with results and follows up with you on treatment. You don't get that with doctors anymore but you do with Dr. Wagner. He listens and gives you tests as needed and I would highly recommend him as anyone's doctor. The staff in the office has always been helpful, professional, and kind. Big city doctor with a small-town feel!

Dr. Igor Gavrilyuk, MD

Internist

Dr. Gavrilyuk has been my family doctor for more than eight years. He is always available when he is needed, even with short notice. He is quick with effective treatments and gives an accurate diagnosis. The best part is he is a good listener and takes the time to let the patient explain exactly what is going on. So many doctors do not listen and that is why so many doctors get it wrong. I can recommend Dr. Gavrilyuk without hesitation.
